6 Table View – based on filters

Currently displaying 15 results **7** | ‹ page 1 of 1 › **7** | 20 ▼ items per page **7**

Display results, list size, page selection

Mapping Components

Each Map has five key components:

A **Registration**
- Name, Organisation and Description – added on creation, editable during draft.

B **Linked Programs/MMS and Courses**
- Added on creation, add or delete during draft.

C **Map Legend - Weighting**
- Name, Symbol and Description editable

D **Mapped Items**
- Link between S&K table *Objective* and 1 or more Curriculum item Learning outcomes or Indicative Assessments; *Justification* and *Internal Notes* (optional)

E **Weighting**
- Added after map link creation, selected from legend

---

1 Button Functionality

Selecting a map enables buttons based on your role permissions:

New
- Create a new map

View
- Read only access to the map content;
- Allows print to PDF

Modify
- Edit content of the selected map

Workflow
- Provides graphical view of workflow
- Supports change state (based on your role)
- View history and comments

3 Aggregate Mapping Reports

Five reports available regarding **ALL** maps in CMS via top left drop down report selector:
- Count by current state or workflow
- Workflows created, approved or published by month (across 1, 2 or 3 years)
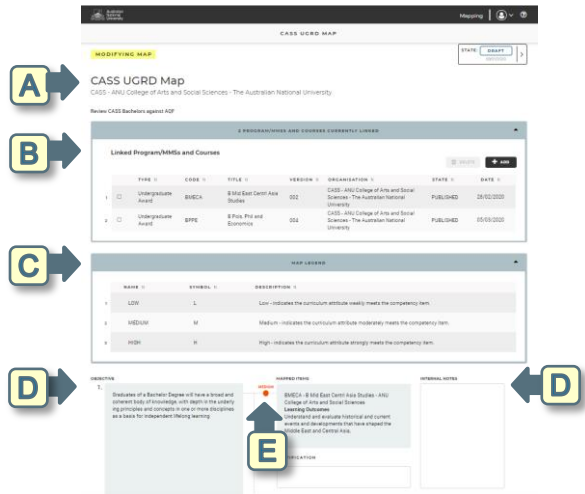

Dynamically updates based on **Filter** choices **2**
Export to **PDF** (graph view) or **CSV** (table view)

Report Selector

Show/hide

PDF & CSV Export

4 Individual Mapping Reports

Two reports available for each **individual** map
- **Heat Map Report -** Overall view of mapping (coverage or highest value), see impacts of change, exportable to PDF
- **Standard Report -** Map details and weighting, exportable to PDF. Similar to View screen, but omits the internal notes

Tips & Tricks

Why can't I edit my Draft Map?
- Check that the S&K table is still in an APPROVED state. Only APPROVED S&K tables can be used in Mapping

---
